PEDIATRIC NEUROLOGY
Subject Index Volume 18

ACTH therapy for West syndrome, 415
ADHD, and methylphenidate effects on EEG, behavior, and performance, 244
Alexander disease, magnetic resonance imaging and magnetic resonance spectroscopy, 67
Anophthalmia, bilateral, Sakoda complex, and cortical dysgenesis, a new syndrome, 445
Antiepileptic drugs and atypical evolution of idiopathic partial epilepsy, 402
Antiganglioside antibodies, and *Mycoplasma pneumoniae* meningoencephalitis and cerebellitis, 160
Asphyxia, acute near-total intrauterine, 391
Ataxia, mental retardation, and short stature, and DNA repair defect, 358
Autoimmune and postinfectious diseases, and overstimulation of nerve growth factors, 231
Atrophy, type I spinal muscular, treatment with noninvasive ventilation and gastrostomy feeding, 407

Beta-thalassemia major, and long-term desferrioxamine therapy, 420
Bloodflow velocities, cerebral, changes during absence seizures, 132
Book reviews
  Central Autonomic Network: Functional Organization and Clinical Correlations: Eduardo E. Benarroch/Author, 459
  Neurology Recall: James Q. Miller and Nathan B. Fountain/Editors, 459
  Paediatric Neurology: Jose Biller/Editor, 278
  Pediatric Neuroradiology: William S. Ball, Jr/Editor, 459
  Practical Neurology: Edward M. Brett/Editor, 278
  Progress in Pediatric Neurology III: G. Gordon Millichap/Editor, 279
  Trauma Anesthesia and Critical Care of Neurological Injury: Kenneth J. Abrams and Christopher M. Grande/Editors, 278
Botulinum toxin injection, use in spastic cerebral palsy, 124
Brain abnormalities in Sjögren-Larsson syndrome, 338
Brain maturation, studied by ^{31}P-MRS, 305
Breath-holding spells, and clinical efficacy of piracetam, 41

Café-au-lait skin lesions, absence of in NF1, 269
Canavan disease, 207
Cardiomyopathy, hypertrophic, in congenital muscular dystrophy, 366
Carnitine, effect on valproic acid concentrations in serum, brain, and liver, 331
Carotid artery diameter, measured by echo-tracking, 221
Cerebellitis and *Mycoplasma pneumoniae* meningoencephalitis, with antiganglioside antibodies, 160
Cerebral edema, caused by fulminant hepatic failure, 299
Cerebral palsy
  Life expectancy, 143
  Spastic, and use of botulinum toxin injection, 124
Chickenpox, associated with acute childhood hemiplegia, 256
Convulsions, afebrile benign, rotavirus encephalitis mimicking, 354
Cutis marmorata telangiectatica congenita, strokes, and factor V Leiden, 342
Cysts
  Cerebral epidermoid, and Mollaret's recurrent aseptic meningitis, 156
  Neuroenteric, mimicking pleurodynia, and thoracic pain, 272

Dancing eye syndrome and hyperphosphatasemia, 432
Dentatorubral-pallidoluysian atrophy, 265
Desferrioxamine therapy, long-term, in beta-thalassemia patients, 420
DNA repair defect with ataxia, mental retardation, and short stature, 358
Duchenne-Becker muscular dystrophy, and electroretinogram, 315
Dysarthria, with cerebellar or brainstem tumors, 411
Dysgenesis, cortical, Sakoda complex, and bilateral anophthalmia, a new syndrome, 445
Dysplasia, fibromuscular, and stroke, confirmed by renal MRA, 172

Echo-tracking, and carotid artery diameter measurement, 221
Edema, cerebral, caused by fulminant hepatic failure, 299
EEG, behavior, and perfomances in ADHD, and methylphenidate effects, 244
Electroretinogram in Duchenne-Becker muscular dystrophy, 315
Encephalitis, rotavirus, mimicking afebrile benign convulsions, 354
Ependymomas, intracranial, clinical and neuroradiologic findings, 23
Epidermal nevus syndrome and startle-induced epilepsy, 346
Epilepsy
  Epidemiology of, 46
  Idiopathic partial, atypical evolution, and antiepileptic drugs, 402
  Progressive myoclonus, treatment with TRH, 442
  Startle-induced, and epidermal nevus syndrome, 346
E-PTA-positive synaptic junctions, ultracytochemical analysis, in postmortem brains with neurologic disorders, 425

Facial palsy, bilateral, caused by bilateral masked mastoiditis, 351
Factor V Leiden
  And stroke, 262
  Strokes and cutis marmorata telangiectatica congenita, 342
Febrile convulsive children, effects on educational program on parents of, 150
Fibrinolysis, CNS, 15
Fibromuscular dysplasia and stroke confirmed by renal MRA, 172

Gastrostomy feeding and noninvasive ventilation as treatment of type I spinal muscular atrophy, 407

Hemiplegia, acute childhood, associated with chickenpox, 256
Hemimegalencephaly and Hirschsprung's disease, 452

Hepatic failure
Acute, and treatment with lamotrigine, 251
Fulminant, and cerebral edema, 299
Hirschsprung's disease and hemimegalencephaly, 452
Hydrocephalus as symptom of spinal cord tumor, 169
Hyperphosphatasemia and dancing eye syndrome, 432
Hypocalcemic-induced increase in creatine kinase, 326
Hypogonadism, mtDNA nt3243 mutation, and external ophthalmoplegia, 429

Immune globulin and thymectomy as treatment for juvenile myasthenia gravis, 63
Immunoglobulin
High-dose intravenous, in transient neonatal myasthenia gravis, 181
Intravenous, successful use in Landau-Kleffner syndrome, 165

Lamotrigine, as treatment for acute hepatic failure, 251
Landau-Kleffner syndrome, and successful use of intravenous immunoglobulins, 165
Leigh syndrome, and mutations at nt8993 mitochondrial DNA, 275
Leptomeningeal astroglial heterotopia, loss of neurofibromin in, and NF1, 227
Linear nevus sebaceus syndrome, and proton magnetic resonance spectroscopy, 176
Liposteroid (dexamethasone palmitate) therapy for West syndrome, a comparative study with ACTH therapy, 415
Lupus erythematosus, systemic, complicated by extrapyramidal Parkinsonian syndrome, 456
Lyme disease, and pseudotumor cerebri, 439

Magnesium, serum ionized, in premature and term infants, 311
Magnetic resonance angiography, renal, and confirmation of stroke and fibromuscular dysplasia, 172
Magnetic resonance imaging
And magnetic resonance spectroscopy in Alexander disease, 67
And magnetic resonance spectroscopy study of Pelizaeus-Merzbacher disease, 334
Magnetic resonance spectroscopy
And magnetic resonance imaging in Alexander disease, 67
And magnetic resonance imaging study of Pelizaeus-Merzbacher disease, 334
Proton, of linear nevus sebaceus syndrome, 176
Mastoiditis, bilateral masked, as cause of bilateral facial palsy, 351
Medulloblastoma, current therapy and new perspectives in treatment, 103
Meningitis
Acute bacterial, risk factors analysis for early fatality, 213
Mollaret's recurrent aseptic, and cerebral epidermoid cyst, 156
Mental retardation, ataxia, and short stature, and DNA repair defect, 358
Merosin-deficient and merosin-positive congenital muscular dystrophy, and visual function, 399
Methylphenidate effect on EEG, behavior, and performance in boys with ADHD, 244
Mitochondrial DNA, mutations at nt8993, and Leigh syndrome, 275
Microlissencephaly, 362
Moyamoya disease, long-term outcomes monitored to adulthood, 321
mtDNA nt3243 mutation, external ophthalmoplegia, and hypogonadism, 429
Muscular dystrophy
Duchenne-Becker, and electroretinogram, 315
Merosin-deficient and merosin-positive congenital, and visual function, 399
Myasthenia gravis
Juvenile, treatment with immune globulin and thymectomy, 63
Transient neonatal, and high-dose intravenous immunoglobulin, 181
Mycoplasma pneumoniae infection, and benign isolated abducens nerve palsy, 71
Mycoplasma pneumoniae meningoencephalitis, and cerebellitis with antiganglioside antibodies, 160
Myotonic dystrophy, congenital, and hypertrophic cardiomyopathy, 366

Nerve growth factors, overstimulation in postinfectious and autoimmune diseases, 231
Nerve palsy, benign isolated abducens, in *Mycoplasma pneumoniae* infection, 71
Neurofibromatosis type 1
And loss of neurofibromin in leptomeningeal astriglial heterotopia, 227
Without café-au-lait lesions, and MRI diagnosis, 269
Neurofibromin loss in leptomeningeal astroglial heterotopia of NF1, 227
Neuronal ceroid-lipofuscinosis
Atypical juvenile, and overlapping with other NCL forms, 36
Late infantile, and palmitoyl-protein thioesterase deficiency, 119

Obsessive-compulsive disorder, and psychogenic seizures, 85
^{1}H-MRS, and Prader-Willi sydnrome, 30
Ophthalmoplegia
Ataxia, areflexia, and brainstem involvement, 73
External, hypogonadism, and mtDNA nt3243 mutation, 429

Pachypolymicrogyria, focal, 435
Palmitoyl-protein thioesterase deficiency in a novel granular varient of LINCL, 119
Parkinsonian syndrome, extrapyramidal, complicating systemic lupus erythematosus, 456
Pelizaeus-Merzbacher disease, studied by MRI and MRS, 334
Piracetam, clinical efficacy in treatment of breath-holding spells, 41
Pleurodynia, neuroenteric cyst mimicking, and thoracic pain, 272
Postinfectious and autoimmune diseases, overstimulation of nerve growth factors in, 231
Prader-Willi syndrome, and ^{1}H-MRS, 30
Proton magnetic resonance spectroscopy, and Prader-Willi syndrome, 30
Pseudotumor cerebri in Lyme disease, 439

Relaxation therapy in Tourette syndrome, 136

Sakoda complex, bilateral anophthalmia, and cortical dysgenesis, a new syndrome, 445

Seizures
Absence, and changes in cerebral blood flow velocities, 132
Afebrile benign, rotavirus encephalitis mimicking, 354
Epidemiology of, 46
First febrile, risk of recurrence and outcome after, 218
Psychogenic, in obsessive-compulsive disorder with poor insight, 85
Serotonin synthesis, brain, and free tryptophan, 57
Short stature, ataxia, and mental retardation, and DNA repair defect, 358
Sjögren-Larsson syndrome, postmortem brain abnormalities, 358
Spastic diplegia, electroencephalographic coherence abnormalities in, 51
Spinal cord tumor and hydrocephalus as possible symptom, 169
Spinal muscular atrophy type I, treatment with noninvasive ventilation and gastrostomy feeding, 407
Strokes
And factor V Leiden, 262
And fibromuscular dysplasia confirmed by renal MRA, 172
Cutis marmorata telangiectatica congenita, and factor V Leiden, 342
Substance exposure, prenatal, and altered maturation of visual-evoked potentials, 236

3-hydroxyisobutyric aciduria, 253

^{31}P-MRS used in study of brain maturation, 305
Thymectomy and immune globulin, as treatment for juvenile myasthenia gravis, 63
Thyrotropin releasing hormone as successful treatment of progressive myoclonus epilepsy, 442
Tourette syndrome, and relaxation therapy, 136
Tryptophan, free, as indicator of brain serotonin synthesis, 57
Tumors
Cerebellar or brainstem, and dysarthria, 411
Spinal cord, and hydrocephalus as possible symptom, 169

Valproic acid concentrations in serum, brain, and liver, and effect of carnitine, 331
Varicella associated with acute childhood hemiplegia, 256
Ventilation, noninvasive, and gastrostomy feeding as treatment of type I spinal muscular atrophy, 407
Visual-evoked potentials, altered maturation of, and effects of prenatal substance exposure, 236
Visual function in children with merosin-deficient and merosin-positive congenital muscular dystrophy, 399

Walker-Warburg syndrome, neurologic features and muscle membrane structure, 77
West syndrome, and liposteroid (dexamethasone palmitate) therapy: a compartive study with ACTH therapy, 415
